Education

Software Engineering — *In progress*
(7th semester)

University of the Americas (UDLA),
Quito

2023 – 2027

High School Diploma in

Sciences Unidad Educativa Isabel
Tobar, Quito

Graduated in 2023

Technical Skills

Frontend: React.js, JavaScript
(ES6+), HTML5, CSS3

Backend: Node.js, Express.js, APIs
REST

Databases: MySQL (SQL),
MongoDB (NoSQL) **Tools:** Git,
GitHub Methodologies: Scrum,
Artificial Intelligence

Profile

7th-semester Software Engineering student (UDLA) and full stack developer with real production experience across both web and mobile applications. I handle the complete development cycle — frontend, backend, relational databases, and deployment — with particular interest in integrating artificial intelligence into real-world applications. I'm looking to join a development team where I can contribute this experience and keep growing technically.

Experience

Full Stack Developer | Alluc Electrónica, Quito | October 2025

– Present

E-commerce and Electronic Invoicing System

- Developed a full stack e-commerce and electronic invoicing system (React, Node.js/Express, MySQL) compliant with Ecuador's SRI tax regulations, featuring more than 20 REST endpoints.
- Configured a CI/CD pipeline with GitHub Actions for automatic deployment to a cPanel server.

AI-Powered Educational Platform

- Designed and developed an educational platform with automatic course generation using generative AI (Google Gemini), processing academic curriculum PDFs to structure subjects, modules, and assessments.
- Integrated a real-time video avatar assistant (HeyGen) and an AI-based automatic quiz grading system.

Software Developer | Elevadores Magno, Quito | 2024 – 2025

- Designed and developed EMA, a custom administrative management system for tracking equipment, staff, clients, and invoicing.
- Built a reporting dashboard with monthly financial indicators and a scheduled maintenance calendar.
- Automated administrative data entry using Excel macros (VBA), reducing manual work and input errors.
- Developed the company's institutional website in WordPress, featuring corporate and contact information.
